“Captivating guitar riffs that includes some incredible speed metal transitions...absolutely phenomenal...rips your face off. As I stated before, Bobby was born for the stage and rockstar is in his blood. Bobby’s performance reminds me of Steve Vai on metal. Truly rocks. I can’t wait for his next live performance,” - Bernard Cana, From the Pit to the Crowd.

1. **Perpetual Dreams**- New Single-featured in Guitar World’s Weekly Essential Guitar Tracks:

“If you’re on the hunt for a healthy dose of high-octane riffage, fretboard-melting soloing and dizzying technical prowess, you can call off the search party, because Bobby Keller has you covered.”

...With a shred-heavy sonic arrangement, complemented by a serenely picturesque music video that sees him rip through his single while waltzing through the wilderness, Keller’s latest track Perpetual Dreams delivers all of the above, and then some.

No stranger to mind-boggling guitar instrumentals – see Reign In Fire and Light Bearer – the Orlando native’s latest lead-heavy escapade certainly ups the ante, eloquently combining blinding two-hand tapping sequences, oh-so melodic single-string slides and tasty bend-infused passages. Not one to be missed. (MO)

2. **Reign in Fire- New Single - Guitar Playthrough Video Premiere**

“Early 2020 saw the announcement of Bobby Keller's new solo project (in collaboration with drummer and engineer Ben Johnson), and with it came his first single Reign in Fire, a furious and sonically diverse instrumental piece that puts his virtuosic abilities on full display.”

..Having shouldered lead guitar duties with Florida metallers Meka Nism since 2010 - performing alongside Evanescence, Gojira, Hellyeah and more in the process - it's clear to see how Keller has honed his razor-sharp chops.

If you're keen to see said chops in action, today's your lucky day, as he's filmed a red-hot playthrough of Reign in Fire exclusively for Guitar World. From ethereal clean lines to monstrous down-tuned riffs and face-melting solo sections, Keller blazes through the track with brutal efficiency.”

3. **Reign in Fire- New Single featured in Guitar World's Weekly Essential Guitar Tracks**

“Already known for a successful career as lead guitarist for the metal band Meka Nism, Bobby Keller has toured with massive names from Evanescence to Hellyeah to Gojira. Now, he tosses his hat into the solo career ring with Reign of Fire, a blazing instrumental piece which clearly draws inspiration from guitar's best-known virtuosos.”

..Needless to say, the track takes you on a pretty rapid journey. From the outset, orchestral atmospheric ambience is followed by fierce drop-tuned riffs and staggering leads. Sprinkled with tapping passages and monstrous breakdown riffs, this is one of the most exciting instrumental guitar tracks we've heard in a while. (SR)
